

You are welcome

General information 2

Electric plate

Thank you to clean the plate only with a specific detergent in order not to scratch the plate.

Fuses are situated behind the microwave.

Washing machine

The machine is situated on backside of the house. Use the right button to wash your clothes. Use the left bottom to get your clothes dry (we suggest you not to do it). For security reasons, the door of the wash machine open only 10 minutes after the cycle is finish. In order to open it earlier disconnects the plug.

Security - please read it carefully

We decline responsibilities in case of theft of your belonging inside or outside the house. Please close the metallic doors when you leave the house. On the side of the door, inside, you will find a stick into the wall. Tear it in order to open the lock.

Swimming pool

We decline all responsibilities in case of accident. Close the metallic doors at any time. Never leave child's unattended.

Barbecue

In case of wind, be careful. You will find plenty of woods around the house you can use. Grape's trees are excellent and burn fast.

Feel free to pick up cherries and grapes during seasons.

Trash

Trashes must be left in the big container place in the entrance of the city of Mazan. For hygiene reason, do not leave it around the house.

We wish you a wonderful journey.
